

# **The 12 Senses – the basis of spatial perception**

After all, our senses are the organs with which we perceive architecture. I would like to show a way to develop more awareness – and also more precise concepts – for sensory perception. What we experience in perception as a complex unit must be differentiated and structured. For the multi-layered areas of sensory perception, we have the most diverse organs of perception that we need to know.

## **Spaces for Children Development**

Thoughts on Architecture Suitable for Children. At the moment, day-care centres are being built everywhere. When one sees the results, the question often arises: Who was this built for?
