

The 12 Senses - the basis of spatial perception

After all, our senses are the organs with which we perceive architecture. I would like to show a way to develop more awareness – and also more precise concepts – for sensory perception. What we experience in perception as a complex unit must be differentiated and structured. For the multi-layered areas of sensory perception, we have the most diverse organs of perception that we need to know.

The reflection of architecture in the physical body of the human being

An approach to consciously experiencing architectural qualities through unbiased observation

Newsletter IFMA-FRANCE – June 2024

Here are some news about our past events and others to come in France:

Space - Perception - Consciousness

Report of the conference held at the Alanus University on
March 8-10, 2024

Rencontre "L'intention et l'inspiration dans le processus de conception" en Alfter

A report about the meeting held at the Alanus Hochschule in
May 2023 in co-operation with the Visual Art Section of the
Goetheanum and IFMA
